

No Score, Intro Shoot

The No Score, Intro Shoot is just what it says. We will set up a variety of targets that are used in our regular .22 matches. This will give everyone that comes out a chance to try out the targets and get a feel for the matches. Targets will be bowling pins, steel plates, cowboy and smallbore silhouette animal targets, there may be additional targets at the time of the shoot. We will have a timer available if anyone wants to be timed, but only if you ask to be timed. The goal being after you get a taste for the fun, you will want to come out and take part in the matches. So bring a rifle, pistol, revolver or all three and as much ammo as you want to shoot in the time we have that day. This is not only for shooters that don't participate in matches now, it for everyone that wants to come out and shoot and have a fun day at the range.
